Mr. Hell sent a letter to several prom inent physicians asking "Can Crime be Committed by the hypnotic power, the subject being the unconscious and innocent agent and instrument? If the subject is unconscious and even unwilling, has the hynotizer such power and domination over the hypnotized as could control action to the extent of the commission of a crime? Is it possible to remove by hypnotic sugges-tion from the mind of the subject all memory of acts or occurrences which happened in the hypnotic state? Would it be possible for a hypnotizer to so control a hypnotized subject as to, for example, make him sign a will in the presence of third persons, de-clare it to be his will and request them to sign as attesting witnesses and be afterwards wholly unconscious of the occurrance? Or a note of hand, or a check?" Reports in the affirmative were re

ceived from several eminent professors, while others, conceding that persons in a hypnotic state are constantly amen-able to control by suggestion, denied that hypnotism has any place in criminal jurisprudence as a defense for crime. Mr. Bell pointed out that it appeared that the majority of medical men in this country did not recognize hypnotic trance as an existing fact. The lawyers and judges were on the same ground as the doctors. In the courts of England the con-

trary was the fact and men of the high-est character and professional attain-ments devoted their best efforts to its study and elucidation. As it was with professional men, so it was with the Professor Carl Sextus of Chicago

Pack, which purports to expose a conspiracy on the part of the insurance companies and the chief of police of Topeka to arrest William Schnell and palm him off for George W. Fraker, of life insurance fame. The letter is written by a German of the name of Harberger, and is to the effect that Fraker or Schnell is a crazy hermit, whose great ambition is to achieve notoriety. The author of the letter declares that it can easily be proven that Schnell has lived in the woods of Minnesota and Wisconsin for years, and that he passed in the locality where he was arrested as "King of the Forest." It is alleged that it is not the intention of the insurance companies to push his prosecution after the money handed over to Fraker's executors has been recovered. It explains that the reason why Fraker's companion in Minnesota was not taken into custody was that he would swear that the prisoner is not Fraker and furnish the names of any number of witnesses who would so testify.

J. P. Davis, president of the Kansas Mutual Life Insurance Co., in an interview last night, said there was no doubt of Fraker's identity, and that no effort would be made to secure the return of the insurance money until all interested admitted it. He said that he believed Fraker would be sent to the penitentiary, although he admitted that a number of prominent Kansas and Missouri attorneys whom he had consulted had expressed the opinion that he could be convicted of

WALLER AGAIN.

The Government Moving Cautiously in Or-der to Protect Waller's Rights.

WASHINGTON, Sept. 6.—The state de-partment has been advised that the secord in the Waller court-martial for which the French authorities found it necessary to send to Madagascar, is expected to reach Aden, on the Red sen, about the 12th inst. After its arrival there some time will be required for its transmittal to Paris and still more before it can reach Washington, if it is decided to have it examined here, so that it is expected to be at least a month before the department can be in full possession of all the facts in the case. In all probability no further step will be taken by the department in this matter until this examination shall be made. There is a growing feeling in the department that France has purposely sought delay in producing this record in the hope of causing the United States to make a peremptory and unconditional demand for Waller's release. It is believed if made this deed Waller would be deprived of all chance of securing an indemnity and the restoration of his land concession. Without an examination of the record which could not be demanded after his release, it would be impossible to show that Waller had been unjustly deprived of his property. The department is using every effort to avoid falling into this trap, while at the same time it is determined to protect Waller in all his interests. The department is understood to be in receipt of the full statement of the case, as supplied by the commander of the Castine. It is believed that the irritation of the French authorities at Tamatave was really aroused by his investigation into this case rather than by his failure to salute the French

Another Attempt to Blow Up the Rothschild Bank in Paris.

Paris, Sept. 6. — M. Rothschild's oanking house in this city was the scene yesterday of another anarchistic attempt. At 3:20 o'clock a man entered the bank from the Rue La Fitte. In the vestibule a detective, who was on guard there, saw the stranger trying to light the fuse bomb which he carried with a cigarette. The ashes on the cigarette prevented the ready ignition of the fuse, and the man seeing that he was observed threw the bomb upon the carpeted floor. The weapon did not explode and the man was arrested. When he was taken to the police sta tion he boldly avowed himself an an-archist. The news of the outrage spread rapidly in Paris, and many fear that it portends a renewal of an active anarchistic campaign.

CREEK NATION ELECTION. fapahecker Has Probably Been Elected Chief.

EUFAULA, I. T., Sept. 6 .- The Creek election passed off quietly. Returns from 15 out of 47 towns in the Creek nation give Ispahecher, the full-blood element candidate, 442; Porter, 93; Perryman, 9: Childress, 57. Indications point to the election of Ispahecker as chief by a small plurality, as it is conceded that the other candidates will be unable to overcome the majority for him in his strongholds already heard from. He was nominated on the fullblood ticket on a platform of suppre sion of Creek pastures and removal of intruders, and his followers expect him, if elected, to wage war on the pasture men and the intruders.

A WATERY GRAVE.

Mrs. Dr. Lannigan Browned in the River at Louisiana, Ma. MENICO, Mo., Sept. 6.—At Louisiana, Mo., Dr. and Mrs. Launigan crossed the river on the ferry. It landed a short distance from the shore. The pier was covered with water on account of the sudden rise of the river. The couple attempted to drive to shore in a buggy when the current took them into deep water. Men in skifts succeeded in saving the doctor, but before they got to the shore with Mrs Lannigan their strength gave out and
